

We offer many types of granite from quarries in different parts of the United States and from foreign countries.

Our manufacturing quarries have a combined experience of well over 100 years and use state of the art equipment in the finishing process. The memorials are carefully inspected throughout every step of production to verify that the materials, workmanship and design of every memorial meet the most demanding standards of quality in the industry.

These quarries are reputable and reliable firms dedicated to upholding the quality and integrity of fine granite memorialization.

Your continued business and support will contribute to the beautification and longevity of the Catholic Cemeteries.

Catholic Cemeteries thank you for considering us to provide memorial assistance for your lot and for your trust and confidence in our products as well as in our staff.

The entire staff of Catholic Cemeteries will work on your behalf to satisfy you and gain your confidence. If you have any questions or concerns please call us at (502) 451-7710.

*This pamphlet has been sent to families as a source of information. We apologize if this pamphlet has reached any home at a time of illness or sadness.*

Monuments come in a large range of sizes, shapes and designs. The minimum thickness of the tablet is 8 inches and a minimum height of 22 inches. Size of bases vary depending on the section. All monuments are subject to approval for size and design as the location may have specific restrictions.
